

## Micro PDSA Template

<b>Intervention:</b>	
<b>Project/Test:</b>	
<b>Objective:</b>	
<b>PDSA Test #:</b>	<b>Test Population:</b>
<b>Start Date:</b>	<b>Stop Date:</b>
<b>PLAN</b>	
<p><b>Describe the test.</b></p> <p>What are the steps that need to be completed?</p> <p>Who is responsible for each step?</p> <p>When will it happen?</p>	
<p style="text-align: center;"><b>Measure(s)</b></p> <p>What data will you collect in order to know your test was successful?</p> <p>How will you collect it?</p>	
<p style="text-align: center;"><b>Hypothesis</b></p> <p>What do you predict will happen?</p>	
<b>DO</b>	
<p>Record your observations during the test.</p> <p>Record the data collected.</p> <p>Was the test carried out as planned?</p> <p>What did you observe that was not a part of the plan?</p>	

## STUDY

What did you learn?

How does these results compare to past performance?

Did the results match your prediction?

## ACT

What will you do next based on your result?

How will you ramp?

Adapt: Improve the change & continue testing.

Changes for next test:

Adopt: Ready to implement at larger scale. Develop plan for implementation and sustainability.

Abandon: Discard & try different change.
