Irving ISD: Jack E. Singley Academy

Richardson ISD: Lloyd V. Berkner HS, Richardson HS

Garland ISD: North Garland HS, South Garland HS

Brenda is one of four siblings born to migrant parents, which soon after became a single-parent home. She grew up traveling the East Coast before settling in South Florida and then Dallas over 20 years ago. Even though she and her twin sister worked since the age of 15 to help support the household, their mother always stressed the importance of education.

Brenda worked at the Greater Dallas Chamber for almost ten years, having started as a high school intern. After the Chamber, she found herself in the education field because she wanted to help people on a more personal level. She worked in elementary schools and high schools in Dallas ISD as a community liaison for nine years and as a higher education advisor for three years through Education is Freedom. Brenda then worked at Richland Collegiate High School as a student advisor until transitioning to Dallas County Promise in 2017.

Brenda graduated from UT Dallas with a Bachelor of Arts in Psychology after transferring from DCCCD. Ten years after obtaining her Bachelor's degree, she went back to school and got her Masters of Science in Social Work from UT Arlington, while working full time at Salazar Elementary School.
